INTERVIEW EXPERIENCE: EY GDS

1. Company and Position Details:

- Company: EY GDS

- Role: Technical Consultant

- Package: 5.5 LPA CTC

- Recruitment through campus placements

2. Recruitment Process:

- Two rounds: Online Test and Technical Interview

Online Test:

- Virtual online test

- Sections: Quants, Aptitude, Logical Reasoning, and Code questions

- Quants, aptitude, and logical reasoning questions were manageable with practice

- Code questions were of intermediate difficulty

- Managed to solve 1.5 out of 2 code questions, with a debugging error in one

Technical Interview:

- Initial anxiety, but interview went well

- Interviewer was frank and strict

- Started by introducing himself, sharing work experience and company history

- Asked to walk through the resume, discussing college projects and work experiences

Interview Questions:

- Basic concepts of Object-Oriented Design and Programming (OODP)

- Role-related question: Explaining the role of a Big Data Analyst (provided example)

- Asked about research on the current services provided by the company (highlighted need for background check)

- Workplace-related questions:

1. Scenario: Teammate refusing assigned tasks and causing conflicts. How would you handle this situation? (Provided response emphasizing communication and escalation if necessary)

2. Scenario: Teammate is sick, and a deadline is approaching. What would be your approach? (Responded as team lead, focusing on prioritizing tasks, managing client expectations, and seeking an extension if needed)

Feedback and Conclusion:

- Interviewer created a relaxed and open environment

- Appreciated answers given during the interview

- Advised to conduct background research on companies before interviews

- Concluded the interview after discussing the questions

Note: The interview experience has been presented based on the information provided. Some details may have been condensed or generalized for clarity.
